

## NAS(AT) – Schools & Children’s Services - Index – Appendix B

**Guidance documents** listed in the table below are available on SharePoint and are found in the Medicines Procedures – Schools & Children’s Services document. The guidance was created by OPUS to coincide with training modules and application of training in practice. Managers are advised to contact their Principal if they require additional support or if guidance does not meet the needs of their service.

**Action:** Identify which guidance relates to the services you provide and act to ensure that systems and arrangements are in place to comply with the required standards.
